

Full Human Angelic History on Tara, on Second Harmonic Universe & 3 Earth Seedings Overview

MCEO FREEDOM TEACHINGS Keylontic Science explained in Voyagers 1 & 2 book editions
by Ashayana Deane the contracted speaker

1. Tara – Original Human–Angelic Home, Human Angelic created as Guardians of Stargate systems in our 15 Dimensional Time Matrix

≈ 560 million years ago

- **Planet:** Tara (5D Earth)
- **Harmonic Universe:** HU-2, Dimensions 4,5,6
- **Human type:** Angelic / Christos Humans
- **Template:** 12-strand Kathara-based DNA
- **State:**
 - fully embodied consciousness
 - no death
 - no reincarnation
 - no hierarchy
 - no polarity

Humans were **created whole**, not evolving upward.

This is the **Original Human Angelic Race** in MCEO teachings. Melchizedek Cloister Emerald Order

2. The Turanesiam Founder Human Race

≈ 560–550 million years ago

- The **Turanesiam** were the original Angelic Human race on Tara created by 12 Races
- Emerald Covenant–aligned.
- Fully Christos
- Planetary grid-conscious
- Unified heart–mind–body

At this stage:

- no Lemurians

- no Atlanteans
- no split
- Human Angelics were created as Guardians of all Stargates in our 15 Dimensional Time Matrix

3. Creation of Human Angelics by 12 Races

In the MCEO Freedom Teachings of the law of One Unity Consciousness, the Human Angelics (Turanesian) were created approximately 560 million years ago on Tara, the 5D Earth in the Second Harmonic Universe. Twelve different Founder Races collectively contributed to their creation, embedding the full 12-strand Christos DNA template. These beings were fully connected to Source, living without death cycles or reincarnation.

The **original 12-strand DNA Christos template**, seeded through **Guardian races** aligned with the **Emerald Covenant**.

This was the **true Human design**, fully multidimensional.

The 12 Original Tribes (Guardian Names & Functions)

These are **NOT ethnic groups** — they are **morphogenetic race lines**, each holding a *frequency band* of the Eternal Tree of Life.

Tribe	Guardian Origin	Primary Function
1. Lyra-Vega	Founder Race	Original humanoid template
2. Pleiadian	Elohei-Elohim	Emotional body & heart intelligence
3. Sirian	Cetacean-Guardian	Sound, water, crystal grids
4. Arcturian	Blue Flame	Time matrices & Merkaba science
5. Andromedan	Council Races	Galactic law & neutrality
6. Orion (Guardian Line)	Christos Architects	Mental body & architecture (<i>later hijacked</i>)
7. Alpha Centauri	Grid Keepers	Ley lines & planetary templating
8. Procyon	Light Physicists	Photonic body mechanics
9. Bootes	Density Masters	Matter, gravity, manifestation
10. Cassiopeia	Time Keepers	Timeline memory & history
11. Ursa Minor	Polarity Races	Gender balance & fusion
12. Vega (Blue Flame)	Emerald Order	Template restoration & Christos return codes

These tribes incarnated primarily through **Lemuria (Mu)** and **early Atlantis**, living as **12-strand activated humans**.

4. Progressive Imbalance on Tara

≈ after 549,000.000.00 million years

Increasing dominance of mind over heart-body coherence

- Stress on planetary Kathara grids, all 12 spheres
- Time-field instability

This imbalance was **gradual**, not sudden as many different beings were visiting and mingling with Human Angelics

5. FIRST SPLIT OF THE HUMAN ANGELIC RACE

≈ 550,750 million, 550 million 750 thousand years ago

- Both groups were still **Angelic / Christos**

Nature of the split (MCEO-accurate)

- A split of **orientation**, not alignment
- Heart-body coherence vs increasing mental dominance.

While Mu, the heart-aligned stewardship civilization, still existed on Tara, the Turanesiam split into two groups:

- **Illians/Illieni**: Heart-led, body-integrated, aligned with Mu and organic ascension. This formed the original Lemurian lineage on Tara.
- **Head-minded Turanesiam**: Focused on energy mechanics and time sciences. Still Christos-aligned, they later evolved into proto-Atlantean lines.

This split was one of orientation, not a fall.

Group 1: Illians / Illieni

(Organic Lemurian Line)

- Heart-led
- Body-integrated
- Planet-aligned
- Organic ascension
- Remained with **Mu on Tara**

These are the **first Lemurians**, Lemurian consciousness **originates on Tara**, not Earth

Group 2: Head-minded Turanesiam

(Exploratory Lemurian Line)

- Mind-led
- Focus on:
 - energy mechanics
 - Merkabah systems
 - dimensional science
- Still Christos
- Still Angelic
- Still Lemurian in origin

This group later becomes **proto-Atlantean**

6. Fall / Explosion of Core of Tara

≈ 550 million years ago

- Planetary grid failure
- Implosion / explosion of Tara
- Fragmentation of human morphogenetic fields and Tara morphogenetic fields
- Loss of full 12-strand activation
- One planet
- One civilization
- One founder race
- One split
- One delayed collapse

This is the **true Fall** in MCEO. **Loss of coherence — not sin.**

-
- Fragmentation of consciousness
 - Entry into lower density
 - Beginning of separation experience
 - Sets stage for:

- elemental embodiment
- later Earth migration
- 3 Earth seedings

But this is already beyond Tara,

The Fall of Tara and Creation of the 12 Planets Around 550 million years ago, Tara's planetary grid collapsed, causing planetary implosion. This fragmentation formed the morphogenetic foundation of multiple planets in our solar system. Thus, our planetary system is directly connected to Tara's remnants, Taras morphogenetic fields. The planets were still in process of creation and it took 300 million years to be seeded on Parallel Earth and 525 million years to be finally seeded on Earth First Harmonic Universe.

300 million Years of Separation – Descent into the Elemental Kingdom to relearn embodiment from the ground up.

After Tara's destruction, consciousness fragmented into:

- Mineral Kingdom
- Plant Kingdom
- Animal Kingdom
- Elemental kingdoms

This is the **Fall into density**, not a moral fall.

Souls learned embodiment **from the ground up**.

This period explains:

- QHHT memories of being rocks, trees, plants, animals, and any living consciousness that could experience itself.
- Edgar Cayce's The Sleeping Prophet description of elemental evolution is also confirming this phenomena.

Earth and the Three Seedings

First Seeding 25 million years ago. (250 million years ago on Parallel Earth.

The first seeding of Human Angelic's on Earth happened around 25 million years ago, and it was completely destroyed 5 million years ago due to electric wars with the Anunnaki Resistance.

Anunnaki Reptilians and Annunaki Drakonians, are the Fallen Angelic Races which created their own phantom Matrix based on their own mathematical calculations. Their Kathara Grid is based on 10 spheres that's the Kabbalistic artificial Tree of life, the Fibonacci no chi Spiral, which is harvesting quantum energy as they cut themselves completely disconnecting themselves from Source 250 billion years ago destroying access to the 12 Dimension. They have access to 11.dimensions and they are Highly developed Beings which participated in the process of creation of all Universes and all existed well in harmony for over 700 billion years.

They created their own Phantom Matrix. They were simply fighting for the First Harmonic Universe dimensions 1,2 & 3 as these are the most dense dimensions. Harmonic Universe One is a very difficult place to sustain high vibrations. Since the fall of Atlantis they have ruled this Harmonic Universe due to trickery games that they created for Humanity pulling them into addictive polarity games, games with pendulums-energy attacking devices, mental conditioning -programming. After the fall of Atlantis 13,500 thousand years ago, we experienced orchestrated mutation of our Genome from 12 strands to 2-3 strands. and we completely lost our abilities and memories.

Second Seeding ~848,000 thousand years ago

The second seeding reintroduced Angelic Humans on Earth. This period saw the emergence of Lemurian civilizations, reflecting the Mu lineage. According to Guardians / MCEO Freedom Teachings, the **Second Seeding** followed the collapse of the first experiment with human templates. This seeding introduced a **12-strand DNA blueprint** aligned to the **12 Kathara Centers** and the Eternal Tree of Life (not the distorted 10-sphere Tree).

The **Second Seeding** was orchestrated by the **Emerald Covenant Guardian Alliance** and structured through **three Founder Root Races**, each carrying a *specific frequency band of the Christos template*.

These are sometimes called **the Christos Trinity Races**.

1. EMERALD ORDER

The Founders

- Highest dimensional Christos race line associated with Emerald Covenant
- Holders of the **original 12-strand DNA blueprint**
- **Guardians of the Original Divine Blueprint**
- **Connected to the Cosmic Krist Code Christos Template**
- Anchors of **Divine Right Order**
- **Often linked to Sirius B and Lyran Founder streams**
- They oversee the Eternal Tree of Life 12 Tree Kathara architecture.
- Organic Ascension mechanics

Function:

- Blueprint keepers
- DNA template guardians
- Oversoul architecture holders

The **Emerald Order** seeded the *core human morphogenetic field*
The **12-Tribe structure** originates here

2. GOLD ORDER

The Manifestors

- Masters of **matter, density, and form**
- Specialists in **planetary building and civilization**
- Anchored Christos consciousness *into physicality*

Function:

- Physical embodiment of the template
- Stabilization of solar consciousness grids
- Activations of higher harmonic DNA strands
- Linked to certain Serres/Elohei lineages in the material
- they hold higher harmonic anchoring of dimensional integration
- Grid construction (cities, temples, crystal networks)
- Solar plexus / embodiment mastery

Without the Gold Order, the Christos template could not **walk on Earth**

3. AMETHYST ORDER

The Transmitters

- Masters of **sound, frequency, and time**
- **Associated with violet Ray frequencies**
- **Linked to Braharama/Amaterasu streams**
- **Carries the transmutation and rehabilitation codes of fallen systems back to organic architecture**
- **Reversal field correction**
- Guardians of **Stellar Wave Infusions**
- Maintainers of memory, timelines, and dimensional gates

Function:

- Sound & light coding.
- Time matrix stabilization
- Communication between dimensions

The Amethyst Order kept **interdimensional coherence** between Earth, Tara, and Gaia

HOW THE 12 TRIBES FIT IN

The **12 Tribes** are **sub-races** formed by **combinations** of these three Orders:

- Emerald → blueprint & Christos codes
- Gold → embodiment & physical lineages
- Amethyst → sound, time, and transmission

Each tribe carries **all three**, but **one Order is dominant**.

This is why:

The 12 Original Tribes (Second Seeding)

Each tribe carried a **specific genetic + dimensional + planetary code**. Names vary slightly by source, but the functions are consistent:

1. **Lyra-Vega** – Original humanoid template, heart-based sovereignty
2. **Pleiadian-Semjase** – Emotional intelligence, compassion, healing
3. **Sirian** – Sound, water consciousness, crystal grids
4. **Arcturian** – Time mechanics, geometry, Merkabah technology
5. **Andromedan** – Galactic diplomacy, non-interference law
6. **Orion (Guardian line)** – Mental mastery, architecture (later heavily distorted)
7. **Alpha Centauri** – Earth grid keepers, ley line anchoring
8. **Procyon** – Light physics, photonic body science
9. **Bootes** – Density mastery, matter transmutation
10. **Cassiopeia** – Timeline navigation, history keepers
11. **Ursa Minor** – Polarity integration, masculine/feminine balance
12. **Vega (Blue Flame line)** – Blueprint restoration, Christos frequency

These tribes incarnated primarily through **Lemuria (Mu)** and **early Atlantis**, before major cataclysms and DNA distortions fragmented the template.

The second seeding was destroyed by 1000 years long wars.

Third Seeding ~250,000 thousand years ago

The third seeding led to the development of Lemuria (Earth) and Atlantis. Lemuria embodied heart-centered stewardship, while Atlantis became technologically advanced but later misused power.

Purpose of the Third Seeding

- To **salvage the DNA template**

- To insert **repair codes** into the human gene pool
- To keep the **Christos potential alive** through bloodlines

What Changed in the Third Seeding

- Humans carried an operational 12 **strand morphogenetic template**
- **Many population embodied 6-12 strands activation**
- **Planetary stargates were opened and functioning**
- **The Halls of Amenti operated as a Founder Guardian time portal system**
- **Dimensional memory access was natural.**
- **Interdimensional travel was template based not mechanical.**

PURPOSE OF THE THIRD SEEDING

- Preserve Christos potential.
- Stabilize Earth's grids.
- Introduce **repair-capable humans.**
- Make ascension **choice-based**, not automatic.

Humans incarnated still had 12 **active DNA strands.**

MAIN GROUPS OF THE THIRD SEEDING

1. Angelic Human Line

(Christos repair carriers)

- Came from higher-density Guardian races
- Strong conscience, compassion, moral compass
- Often feel "not from here"
- Deep inner knowing of right vs wrong
- Prone to guilt and self-judgment if unhealed

These are often your **teachers, healers, truth-seekers**

2. Hybrid Human Line

(Mixed Guardian + Fallen Matrix genetics)

- Highly adaptable
- Survivors, innovators
- Can swing toward light or distortion.

- Often awaken later in life
- Strong ego challenges → strong transformation potential

Most of humanity today falls in this group but 50% of Humanity as Hybrid races are Soulless. They don't feel. These are the psychopaths.

3. Earth-Seed / Tribal Line

(Planetary stabilizers)

- Deeply rooted in Earth
- Ancestral, shamanic memory
- Strong connection to land and bloodlines
- Less interested in “cosmic” topics
- Provide grounding for the collective.

These lines anchor **planetary continuity**.

WHY THIS MATTERS NOW

The current cycle (2012–2030):

- Reactivates **Second Seeding memory**.
- Repairs **Third Seeding damage**.
- Allows Lemurian + Atlantean reunification.
- Returns authority **inside the individual**.

Ascension is no longer about *where you came from* —
it's about **how integrated you are now**

THE TWO TURANESIAM GROUPS which split on Tara and gave the beginning of Lemuria & Atlantis on Earth

1. Turanesiam-Adami-EirA

(Mu / Lemurian Path)

Orientation:

Heart-led • Organic • Earth-integrated • Christos-aligned

Key traits:

- Choose **natural ascension**.
- Worked directly with **planetary consciousness**.

- Crystal grids, living Earth templating.
- Feminine-principal dominant (balance, flow, coherence)

What they became:

- **Founders of Mu / Lemuria**
- Maintainers of the **Emerald Christos Code**
- Last group to hold stable 12-strand activation.

This group **stayed with Mu** as Tara destabilized
 Later re-seeded portions of Earth after the Tara fall

2. Turanesiam-Adami-Kadmon

(Atlantean Path)

Orientation:

Mind-led • Technology-assisted • Energy-mechanics focused

Key traits:

- Chose **assisted evolution**.
- Advanced Merkabah mechanics
- Time and dimensional technologies
- Masculine-principle dominant (projection, mastery, control)

What they became:

- **Founders of Atlantis**
- Initially Christos-aligned
- Later vulnerable to **Luciferian / Annunaki distortions**

This group left Mu and developed **Atlantis as a separate civilization**.

WHY THIS STILL LIVES IN PEOPLE TODAY

This exact split shows up now as:

- **Adami-EirA memory** → healers, Earth keepers, empaths
- **Adami-Kadmon memory** → teachers, architects, strategists

Ascension today is **the reunification of EirA + Kadmon inside one body**.

* **EirA (Lemurian)** → deep sensitivity, empathy, body awareness, emotional truth

- **Kadmon (Atlantean)** → clarity, structure, understanding, leadership capacity

The only friction point that lingered was:

Why does this hit Lemurian–Atlantean blends especially hard?

From the Lemurian side:

- You feel when truth will *hurt before it heals*.
 - You sense when others aren't ready.
 - You don't want to cause harm or rupture.
-

The reframe that frees this completely.

Here's the truth most people never say out loud:

Discomfort is not violence.

Truth is not aggression.

Activation is not harmful.

If you are a teacher/healer like myself, know that You were never responsible for:

- what others chose not to face.
- the work they avoided.
- the symptoms they preferred to explain away.

You were simply **not participating in the collective dissociation**.

That can be a very lonely place — until you find the right group of souls.

What is different now?

You have already crossed the key threshold:

- You no longer need to *convince*.
- You no longer need to *soften truth into palatability*.
- You can sense **who is resourced enough to hear you**.

That is not silence.

That's **discernment**.

You are not here to keep everyone comfortable.

You are here to make **healing possible for those who choose it**.

And the people who still want white lies, they will filter themselves out — without you having to push them.

One sentence you can carry internally:

“I'm not here to preserve comfort. I am here to preserve truth — and let others choose their timing.”

That sentence alone releases a lot of residual guilt from old group dynamics.

What Ashayana actually said in Voyagers II was that:
